- Be sure to complete all parts of the form especially your email address as we send your information to do the workshops by email.
- If you have been certified and hold a certificate number and it has lapsed (expired) you are still considered to be certified.
- ****The ECL Framework Online Workshop Series**
There are four online workshops, each one is based on one of the ECL Framework Goals. They can be completed in any order. To participate in the online workshop series you will need to register by completing the online workshop registration form and submit the completed form to the AECENL office. Once registered you will receive e-mail confirmation with login information as well as an electronic copy of the ECL Framework. It is important to read the ECL Framework prior to participating in the online workshops. Participants of the online workshops are invited to join AECENL's private Facebook page dedicated to the ECL Framework where participants from both the webinars and online framework series can share their successes and ideas. Participants of the ECL Framework Orientation Series will receive one hour of professional learning hours for each of the online workshops that they complete. However it should be noted that the webinar content is the same as the online workshop content. Therefore, if you complete Goal Two-Communication as a webinar and also as an online workshop you can only use one of the Goal Two-Communication workshops for professional learning hours towards your certification renewal.

The ECL Framework will be delivered as four free workshops with each workshop based on one of the framework's four main goals for early childhood learning. The four goals are:

Goal One – Wellbeing and Belonging

Goal Two – Communication

Goal Three – Play and Exploration

Goal Four – Social Responsibility
